YURT**

Brother Moon & Sister Sun, by Victoria Mumngshoaluk (1982) sourced from
www.InuitQ.ca a website we're launching on March 31st

There's lots to celebrate about 2010: Year of the Inuit. Inuit are the original eco-stewards. We're celebrating how much we in Southern Canada--as scientists, philosophers, artists, young and old—have to learn from Inuit. But colonialism still exists and we have to stand up for our fellow Canadians to say “Enough is Enough”. Statistics Canada reports Inuit in Nunavut and Nunavik remain homeless across the Arctic of Canada: more than 3000 housing units are urgently needed. A January 2010 report stated that Inuit preschoolers in Nunavut are going hungry. There has been little federal response for over 15 years from the Government of Canada. March 31st: Let's Make Some Noise!
